Ansari Motiur Rehman G.R

ABOUT ME

React Developer
Since 2017

Started learning JavaScript and its frameworks after my graduation. Started exploring React as hobby and then landed in a job for the same. I am a tech enthusiastic person, who keeps on learning new tech standards and evolving my knowledge.

I have also published **Spell-Out** npm package.

PROJECTS

Online Food Delivery Application
Since 2018-2022 | React, Redux, Node, MongoDB

This application is related to booking online food orders. User can see list of food items in given resturants and can book orders. We have used Node & Express as backend and for frontend we used React and Bootstrap. To persist user data we used MongoDB.

Advanced Inventory System
2019 – 2023 | React, Node, MongoDB, ShadCn

Various local mills needs to maintain their paper-based inventory on daily basis, so we digitalized their paper-based inventory system cum human resource management. For user interface we used React along with Material UI, and Node and Express as backend.

SKILLS

MERN Stack
Intermediate Level

HTML5 · CSS3 · JavaScript · ES7 · React · RTK
NextJs · NodeJs · ExpressJs · MongoDB · MySQL

Other

Git · Postman · Bootstrap · Material UI
ShadCn UI · Tailwind CSS · Styled Components
Srapi CMS · Heroku · Netlify · Python
Jupyter Notebook
